

Tell Me O Muse

Emil Bulls

Walking this path made me a restless driven maniac
Now tell me o muse
Should I leave the table or should I ante up?

What if I don't give a fuck but all that I've got and end this
game with a new start?
Will I wake up in hell?
Tell me, tell me o muse

Come on, come on, just feel it!
Come on, just live a little!
You gotta gotta gotta go, enjoy your life and take it easy!
Come on, come on, just feel it!
Come on, just live a little!
You gotta gotta gotta go, enjoy your life and take it easy!

I'm slowly going mad at the mercy of my anxiety
Now tell me o muse
Should I play my last song or go for an encore?

What if I don't give a fuck, but all that I've got and end this
game with a new start?
Will I wake up in hell? Tell me, tell me o muse
Come on, come on, just feel it!
Come on, just live a little!
You gotta gotta gotta go, enjoy your life and take it easy!
Come on, come on, just feel it!
Come on, just live a little!
You gotta gotta gotta go, enjoy your life and take it easy!
