

Wolves

Emil Bulls

Night - a dark city
I am with the wolves
Time for supper
All our senses chasing you
The hunt is on
No need to run
We'll get you anyway

Hey you hey you
Hey you hey you

I told you all the things you had to know about
Me and rock'n'roll
It takes your blood and your tears to get on top
I told you all the things you had to know about
Me and the moon
Here's the truth that you wanted to deny

Night - the moon is full
In the pale glow
We're heading to the streets below
You're everywhere
In the cool night air
You can't throw us off the scent
Hey you hey you
Hey you hey you

I told you all the things you had to know about
Me and rock'n'roll
It takes your blood and you had to get on top
I told you all the things you had to know about
Me and the moon
Here's the truth that you wanted to deny

After all it's your blood that will untie us all
In the end your blood will untie the pack forever
You know about me - about me and the moon

I told you all the things you had to know about
Me and rock'n'roll
It takes your blood and your tears to get on top
I told you all the things you had to know about
Me and the moon
Here's the truth you wanted
Here's the truth you wanted to deny forever
