

Oh beneath the waves
Songs surround me
Heaven binds me to a place we lost
Inside a plane thoughts deceive me
Your truths with me
Time and time and time and time and

Elísabet we're calling out to another
when all is said
Oh world give silence silence silence

Come out from the dark
Nights a whisper
Faces flicker n'anchored by your fire
Sleeping on the sand
Night surrenders
Shadows cower
In wait in wait in wait in wait and

Elísabet the distance sounds of bells
Surround you
When all is said
Oh mind give silence silence silence silence
