Here Eternally

Emma Drobná

When I saw you that day, All suddenly stopped, I thought to myself.

I'll be there for you, Hope, you'll be there for me. Till the end of the time.

Only you, only me, We are here, eternally, Only me, only you. Only you, only me, We are here, eternally, Only me, only you.

When I'm holding your hand, All finally make sense, You're my reason to breathe.

I belong to you, You belong to me, It's our destiny.

Only you, only me, We are here, eternally, Only me, only you. Only you, only me, We are here, eternally, Only me, only you.

When I'm close to you, There's nothing before, Leave all the past behind.

Now I'm here for you, Know, you're there for me, Till the end of the time.

Only you, only me, We are here, eternally, Only me, only you. Only you, only me, We are here, eternally, Only me, only you.

(Only me, only you.)
(Only me, only you.)
