

I Loved You

Emma Drobná

I remember when I left you sitting all alone
On the bedside where I used to cry on my own
You don't believe me, it doesn't matter, I would never lie
For the last time, give me reasons leave the past behind
Baby, you look so beautiful
Baby, don't let me out the door
Baby, you sound so beautiful
Baby, just let me hear the words

I loved you, I loved you

I think you know that I loved you so well, just hear me out
We could never be together and I know it now
Your latest message was different from what I used to hear
Say you're sorry, let me hear it, let my soul free
Baby, you look so beautiful
Baby, don't let me out the door
Baby, you sound so beautiful
Baby, just let me hear the words
I loved you, I loved you
(I loved you, oh)

Baby, you look so beautiful
Baby, don't let me out the door
Baby, you sound so beautiful
Baby, just let me hear the words
I loved you
Baby, you look so beautiful
Baby, don't let me out the door
Baby, you sound so beautiful
Baby, just let me hear the words
I loved you, I loved you
I, I loved you
