

# Smile

Emma Drobná

Lovings and feels, wicked as they are  
Coming with fears, platonic so far  
Boy had a girl, I had you boy  
Misunderstood, no joy, no more

Lovings and feels, wicked as they are  
Coming with fears, platonic so far  
Left it open, talking by my heart  
Cause I'm dying hoping  
That's, where it all starts

Is this love, is this love  
That's question not asked  
If love is this love  
Don't crave it too much  
Is love is this love  
That's question not asked  
If love is this love  
Don't crave it too much

And when you smile  
And I glow  
You got me now  
And I have you boy  
And when you smile  
And I glow  
You got me now  
And I have you boy

Lovings and feels  
In our favourite bar  
You kissed my red lips  
Lighted my cigar  
I looked right at you  
Boy, you not my guy  
So glad I met you  
Thank you and goodbye

Is this love, is this love  
That's question not asked  
If love is this love  
Don't crave it too much  
Is love is this love  
That's question not asked  
If love is this love  
Don't crave it too much

And when you smile  
And I glow  
You got me now  
And I have you boy  
And when you smile  
And I glow  
You got me now  
And I have you boy

And when you smile...

Lovings and feels, wicked as they are...  
Lovings and feels, wicked as they are...
