

Over

Emma Smetana

I keep falling under spell, that only you can break
So far from messing around

So far, I haven't found sense you not being around
So far, you are the only one that keeps my feet on the ground
And now I am falling under spell that only you can break
Cos now I'm done with messing around
I wanna start ...

Over from the top, with you by my side
Over from the top it's time to make it alright
It's time to keep each other warm every night
... with you by my side

Over from the top, with you by my side
Over from the top, it's time to make it alright
It's time to keep each other warm every night
... with you by my side

So far, I haven't found another soul that closer to mine
So far, I haven't found the way of every move you from my mind
So far from messing around

I wanna start
Over from the top, with you by my side
Over from the top it's time to make it alright
It's time to keep each other warm every night
So far from messing around

Over from the top, with you by my side
Over from the top will make it alright
It's time to keep each other warm every night
... with you by my side
... with you by my side

Move over from the top
Move over from the top
With you by my side

Over from the top
Over from the top
Over from the top ...
