Trash Folder

Emmure

Hey, man
Heard your band
Damn, that shit is rad
Oops, I lied, my bad
It's fucking garbage!
Write your songs all day
Riffs and lyrics change
But you end up sounding just like me

I make the wave
I set the stage
I die and then
Resurrect to come and take you out again

I make the wave
I set the stage
I die and then
Resurrect to come and take you out again

Seems you tried your best
With that pencil lead
Less inside your head
You fucking poser

I
Hate
You
You fucking poser
I
Hate
You
You fucking poser

I make the wave
I set the stage
I die and then
Resurrect to come and take you out again

I make the wave
I set the stage
I die and then
Resurrect to come and take you out again

I
Hate
You
