

Falling In A Deep Hole

Emmylou Harris

Drowning in the ocean; you can be my lifeboat
Busted for a reefer; ninety-nine years solitar'
You can be my keeper
Falling in a deep hole, and it's getting deeper

Stranded on the desert, you can bring me water
Falling through the blue sky from an airplane,
You can parachute down and save me
Need to take my medicine... Baby, your love can take me

Mixed up like a puzzle; you put me together
Paranoia nightmare raging in my sleep,
You can kiss me on the cheek and soothe me
Want to go to paradise? Baby, you can take me
Need to take my medicine... Baby, your love can make me
Falling in a deep hole, and it's getting deeper
