Sweet Dreams of You

Emmylou Harris

Lonely tears roll down
As midnight comes around
But I can make it through
In sweet dreams of you

In the shadow of the night I still hold you tight Yes, it all comes true In sweet dreams of you

In sweet dreams I see
The way things used to be
When your love was mine
And your heart was true
In sweet dreams of you

Oh, I call out your name And you come to me again The way you used to do In sweet dreams of you

In sweet dreams of you In sweet dreams of you
