

Hello Lover

Empires

Hello. I love you. I'm leaving.
What else is there left to do?
With your safety eyes, and your hearts cease fire, there's no h
ostage.
I'll never come back to you.

But hello lover, don't forget me.
Hello baby, don't you miss me? Hello lover.

Hello. I still hear you listening.
All our noises are still stuck in your head.
You took too much of my loneliness to need you. I've got no pit
y for you.

But hello lover, please forgive me.
Hello baby, don't you miss me?
Hello lover, oh don't forget me.
Hello baby, come and get me.
Hello, hello lover.

Hello lover.
Hello lover.
Hello lover.
Hello lover.
Hello lover.

Hello baby, come and get me.
Hello baby, don't you miss me?
