

Keep It Steady

Empires

I saw you dancing like you need to forget
Did you forget, did you forget
The way you got me with the side of your hip
It made me forget, made me forget
I've got an endless itch in the pit of my chest
I'm being my best, I'm weak in my chest
I've got the spine of a snake when it comes to my head
You're into my head

Are you ready?
Are you ready or not?
Keep it steady while your heart is hot
We're going to freedom in this parking lot
Are you ready?
Are you ready or not?

All the cars eyes are peeking out from the side
You see the headlights
I hear the engines cry
I fear the bullet coming close from the one you know
Another jealous thug, let's see who's having fun
I hear high groan as you melt away
You lost the pain in your pretty face
Mine's coming out as you hold me down
You suck the pain that I'm sending

Are you ready?
Are you ready or not?
Keep it steady while your heart is hot
We're going to freedom in this parking lot
Are you ready?
Are you ready or not?
Are you ready or not?

All this ending for now
While we wait in a cloud of unconsciousness
Maybe we are falling
It's all gonna happen again

Are you ready?
Are you ready or not?
Keep it steady while your heart is hot
We're going to freedom in this parking lot
Are you ready or not?
Keep it steady
Are you ready or not?
