

Every moment I live for the passion inside
Making the most of the gift that was given called life
Every day I thankfully, take advantage of the things
Of all of the things we've been given but we take for granted
Even when challenged

You know that life, life is never standing by
Don't waste your time, analyzing reasons why
Live, and make the most of every day
Embrace your life, 'cause God's in every breath you take

Listen, listen, listen...
Listen, listen, listen...

Every day is a chance to stand up to the madness
Being a light for the ones that are traveling in darkness
We live in times where there's a need, to co-exist respectfully
Being a foundation strong for the next generation
For all the nations

You know that life, life is never standing by
Don't waste your time, analyzing reasons why
Live, and make the most of every day
Embrace your life, 'cause God's in every breath you take

Listen, listen, listen...
Listen, listen, listen...

Life is...
Listen, listen, listen...
Live...
Listen, listen, listen...

Life, life is never standing by
Don't waste your time, analyzing reasons why
Live, and make the most of every day
Embrace your life, 'cause God's in every breath you take

Listen, listen, listen...
Listen, listen, listen...
