

# Love the Way

En Vogue

I love the way you love me  
I love the way you love me  
It feels good to me

All I do, is think of you  
I lose my cool every time that you're around me  
See, that surprised me, but now I know  
You got that thang, it's hard for me to let it go  
I can't function when you are my drug  
I'm addicted, can't get enough  
I'm so gone, ooh, I'm feeling this  
Like after my first hit, now I can't resist

I love the way you love me, it's so right (so right)  
It's so good (so good), you're all mine  
I love the way you love me, I can't lie  
It feels good to me  
I love the way you love me, it's so right (so right)  
It's so good (so good), you're all mine  
I love the way you love me, I can't lie  
It feels good to me

What you want, it's all right by me  
Can't even function, a heart without a heartbeat  
I can't be, how I wanna be  
I need you close, I made you my priority

Giving love in my mind  
Nightly dream come to life  
Butterflies, summertime  
Rainbow getting love and  
Dip in all time and space  
Finding love, Milky Way  
Venus, Mars, lover thang  
On this galaxy, baby

I love the way you love me, it's so right (so right)  
It's so good (so good), you're all mine  
I love the way you love me, I can't lie (I can't lie)  
It feels good to me
