

Silent Nite

En Vogue

You know that it's the time of year
When certain things that you see and hear
Remind you of the holidays
When I hear, the bells ring
I think of you, and I start to sing
You hold me tight, all through the night
Find peace and calm, is in your arms

Silent nite
Feels so right, you know it
All is calm, all is bright
Silent nite

You're the season's joy to me
My holidays aren't the same you see
I long for your warm embrace (warm embrace)
But when I hear, the bells ring
I think of you, and I start to sing
You hold me tight, all through the night
Find peace and calm, is in your arms

It's the time of the year
When I wanna hold you close my dear
Oh no, no, don't get me wrong
The other times are nice
But there's something about the holiday's cold snow and ice
That gets me in the mood, maxin' chillin' to the funk style groove
Listen to the seasons holidays that be
By the E to the N to the V-O-G-U-E

When I hear, the bells ring
I think of you, and I start to sing
You hold me tight, all through the night
Find peace and calm, is in your arms
