

Kiss of Death

Enforcer

I have always walked beside you
An uninvited guest
Following you every step you take

Have you ever felt the deadly chill
felt you're not alone
Materializing your nightmares wide awake

And you shall always fear my name

I am the reaper
the reaper's kiss
The reaper
you're on your knees
The reaper -
your time is over due

The hand of doom - has it's grip on you
And you will taste the kiss of death

Repent your sins or face my wrath
Your sands are nearly run
Dread now for your precious heart and soul

Heed the sentence that I brought
To me you shall succumb
I am death, I'm here to take my toll

And you shall always fear my name

I am the reaper - the reaper's kiss
The reaper - you're on your knees
The reaper - your time is over due
The hand of doom - has it's grip on you
And you will taste the kiss of death
