

End of days

Engel

First off, you should know one thing
I don't care what you think of me
There is just these words for you
It is all that I have to do

I have never felt so free before
And I still believe that I will find some more of my
Revenge, oh so dear to me
There is not much left to say

You thought that it was time
But I will stay alive
Showing you till the end of days

I will always be more than you
And I know you'll never win
I'm stronger than I ever was
You have lost

No, there is nothing left for you
You did not break through

You thought that it was time
But I will stay alive
Showing you till the end of days
You thought that it was time
I will stay alive
You will not be the end of me

Somewhere I feel the pain left inside
Which reminds me of what you've think you've done
Let the burning feeling transfer back to you
See the light at the end where you
Beg for mercy

You thought that it was time
But I will stay alive
Showing you till the end of days
You thought that it was time
I will stay alive
You will not be the end of me

Of me
