

the pressure's on.

Enter Shikari

I step out the door and it's dark and I'm on my own
I breathe in the scent of the pine and the conifer cones
I feel like I've fallen down a staircase
And broken my bones

You better figure it out now
You better figure it out now
The pressure's on
You better figure it out now
You better figure it out now
The pressure's on

I can't quite believe the time that's gone flying by
You try and tell me that everything will be fine
I appreciate your belief
But I'm not sure you're right

You better figure it out now
You better figure it out now
The pressure's on (on, on, on)
You better figure it out now
You better figure it out now
The pressure's on

And this isn't what I planned
I wish you could understand
I throw myself into the day
But I just seem to ricochet

You better figure it out now
You better figure it out now
The pressure's on
You better figure it out now
You better figure it out now
The pressure's on

And this isn't what I planned
I wish you could understand
I throw myself into the day
But I just seem to ricochet

You better figure it out now
You better figure it out now
The pressure's on
