

On The Surface

Ephemera

So you say you're willing to
Break out and spend your last day with me

And still you want to walk by my side

On the surface
As harmless as can be
You and me
But underneath
There's a story never told
About you and me
No complications please
I will win situation is to prefer, yeah
But are you willing to let loose
On my default will you still be here

So you say you're willing to
Break out and spend your last day with me
A stiff? to climb
And still you want to walk by my side
On the surface
As harmless as can be
You and me
But underneath
There's a story never told
About you and me
On the surface
As harmless as can be
You and me
But underneath
There's a story never told
About you...
