

Wonder Woman vs Stevie Wonder

Epic Rap Battles Of History

Wonder Woman fly, I'm about to tell you why:
Princess Diana, but this lady don't die!
My rhymes are signed, sealed, and delivered on time!
You a bald has-been; I'm in my amazon prime!
I'll tell you what I say! You bit your style from Ray!
The grin and the shades and the King Cobra head sway!
Gods made me out of clay, then they broke the mold!
I'm like Geena Davis, in a justice league of my own!
I just called to say that you need to ditch the hair beads!
Lookin' like the Predator after some chemotherapy!
But don't be scared, I let bats down easy,
So you don't gotta worry 'bout a thing, Little Stevie!

I feel like this is the beginning, (ohhh!)
But you have sucked for a few thousand years!
(Hey!) I'm a man who comes from a higher ground,
(Hoo!) And I say DC is a whole step down!
I've been spitting out hits since both Fingertips,
So use the tip of your fingers and read my lips!
How you gonna talk about a bat being blind? (Why?)
You need to echo-relocate to the fourth of July
Because you're Ms. Independent, or at least you try,
But your first story is you, running off with a guy!
(Okay!) Now let me tell the truth 'cause I know you got the lasso!
You got that wack flow! Suffering Sappho!
I'm the ceremony master blaster with the bars,
And I got more Grammys than your panties got stars!

Well, I'm a woman who wonders what you're thinking!
Some of your records make me wish you started drinking!
Even if I stick to the best selections,
Your YouTube videos raise some vision questions!

Your ignorant questions could never cause as much pain
As never knowing how stupid you look in your airplane!
You're a misguided, C-minus-on-the-Bechdel test joke,
And my worst song is better than your best TV show!

Look, I don't wanna judge a Talking Book by its cover,
But of the vegan buffet, you're a Full-Time Lover
And a part-time father, from what I've discovered!
Nine different kids with five different mothers!

You couldn't walk in my shoes, so stick to your re-boots,
With plots so thin even I can see through!
It's not a superstition; I believe you got dissed!
Not even your tiara's coming back from this! (Yeah! Haha!)
