

# Did It To Yourself

Eric Bellinger

[Verse 1:]

I'm not the one who told me lies  
I'm not the one that let me cry  
I'm not the one that said it's over  
I'm not the one who wasted my time

[Chorus:]

You did it to yourself  
You did it to yourself  
I was the one, did everything that you asked  
I was the one ready to give you my last  
You did it to yourself  
You fool me once, shame on me  
But you won't full me twice, shame on you  
Look at all these tears on the floor right now  
Floor right now, floor right now  
I know you probably wish I was yours right now  
Yours right now  
But you did it to yourself  
You did it to yourself  
You did it to yourself

[Verse 2:]

I'm not the one that should've stayed sober  
I'm not the one that pushed me further  
And pulled him closer  
I'm not the one who betrayed me that night  
But I'm the one that's out of your life

[Chorus:]

You did it to yourself  
You did it to yourself  
I was the one, did everything that you asked  
I was the one ready to give you my last  
You did it to yourself  
You fool me once, shame on me  
But you won't full me twice, shame on you  
Look at all these tears on the floor right now  
Floor right now, floor right now  
I know you probably wish I was yours right now  
Yours right now  
But you did it to yourself  
You did it to yourself  
You did it to yourself
