

Dirty Dancin'

Eric Bellinger

Going up, baby, here we go
Music making me lose it, oh no
Hit the switch, girl, you're in control
Nobody can see what we're up to
You saying pull up, pull up (pull up)
Don't you go up and I don't find nothing
Take it up to the top floor (where?)
Give it to me like you owe me something, oh yeah (yeah)
You been waiting for it, I know it's true (whoa)

I want to get closer to you (sheesh)
I like how you move, baby, whoa (yeah)
I want to be pressed up against ya (ow)
We don't need a room baby, no

We can dirty dance on the floor, whoa, floor, whoa, yeah
Dirty dance on the floor, woah, floor
We can dirty dance on the floor, oh, floor, yeah
We can dirty dance on the floor, whoa, sheesh, floor, yeah
(It's Eazy)

Sweat from your body is making me thirsty (oh)
I can tell you're well in your zone
Baby, your booty move like it don't need your body
Like it got a mind of its own
And when you make it go (oh, oh)
I wanna pay a bill or two
Swear when you move it just make me wanna make life a little easier on you
Can I be honest?
You know I want it
Promise I won't touch
Girl, I can't make that promise, no

I want to get closer to you (to you)
I like how you move baby, whoa (move)
I want to be pressed up against ya ('gainst ya)
We don't need a room, baby, no (baby)
No

We can dirty dance on the floor, whoa, sheesh, floor, woah, yeah
Dirty dance on the floor, whoa, floor (dirty dancing on the floor)
We can dirty dance on the floor, whoa, floor, woah
Dirty dance on the floor, whoa, floor, yeah

Dirty dancing
I'm pulling your hair, you scratching my back
Dirty dancing
You feeling yourself 'cause I'm in my bag

I want to get closer to you (to you)
I like how you move baby, whoa (whoa)
I want to be pressed up against ya (come and press up against me)
We don't need a room, baby, no (no)

We can dirty dance on the floor, whoa, floor, whoa (ow, yeah)
Dirty dance on the floor, whoa, floor (sheesh, whoa)
We can dirty dance on the floor, whoa, wow, floor, whoa, yeah

Dirty dance on the floor, whoa, floor, yeah
