I Don't Want Her

Eric Bellinger

League of Starz
Sorry Jaynari
This gon' be your favorite song
I see em looking at my woman (Haaa-ah)
If they ain't looking I don't want that girl (Haaa-aaalright)
If they ain't looking I don't want her
If they ain't looking I don't want her
If they ain't looking I don't want that girl (No)
Yeah she bad ain't she?
Why would I wanna keep her to myself?
I know you mad ain't ya?
'Cause she only want me and no one else
I tell'er put her heels on
So she can show off them legs
But even with her clothes on, she turn heads
I see em looking at my woman (Yea-yeahhh)
If they ain't looking I don't want that girl (Haaa-aaalright)
If they ain't looking I don't want her
If they ain't looking I don't want her
If they ain't looking I don't want that girl (No)
Come on. Whaaat?
Bad bitches put your hand up (hands up)
I need to see you
Twerk, twerk it for a real nigga (twerk!)
If your nails done then your weave new
Never be raggedy, your finer than Vanity mags
Max hundred with everything, don't be rocking them shaggidy bags (nope!)
PDA never shame when I kiss her, step back like
Like look at that frame on that picture
Wit yo badass (what?), it's a night no glad ass (what?)
Pretty face with a fat ass
In a dress straight from badass Tennessee
Who she going home with? You finna' see nigga (what?)
If they ain't looking I don't want that girl (Haaa-aaalright)
If they ain't looking I don't want her
If they ain't looking I don't want her
If they ain't looking I don't want that girl (No)
If they ain't looking at my baby
Then it's something wrong with me
If they ain't hating on what we got
I'mma need a new woman
If they ain't looking at my baby
Then it's something wrong with me
If they ain't hating on what we got
I'mma need a new woman
If they ain't looking I don't want her
I see I can see 'em look yeah
If they ain't looking I don't want that girl
You know I don't want it
If they ain't looking I don't want her
If they ain't looking I don't want her
If they ain't looking I don't want that girl (No)
What?
What?
What?
Like whaaat?
