

# Night Owls

Eric Bellinger

Give it one time for the pretty girls  
Especially the ones that trust you  
Getting ready in the mirror  
While they're listening to their favorite song  
Cause when the night falls in  
They just wanna let go

So baby why won't you tell me why you're running?  
Why you rushin' [?]  
Tell me what you want baby  
You can get it from me  
A bottle in my left hand  
And there's no turning back now  
And girl I already know that you don't wanna back down

What you doin' with it  
What you doin' with it  
What you doin' when the night calls?

What you doin' with it  
What you doin' with it  
What you doin' when the night falls?

What you doin' with it  
What you doin' with it  
What you doin' when the night calls?

What you doin' with it?  
Cause I'mma do what I want

You know how it's going down  
It's going down  
Yeah  
That's what we do the night owls  
Night owls

You know how it's going down  
So we doin' the night owls  
Night owls  
Do it, yeah

Would you give it one time for the freaky girls?  
They know what they just want  
And they ain't afraid to tell you  
Cause honestly, the honesty got me more into you  
I tell no lies, no  
I tell the truth

You ain't got to tell me that you love me  
I know I ain't the only one  
But you're mine for the night  
And it's alright when I'm here

Just ride me  
That's what I need  
It's not easy  
Tell me what you'll gonna do with it

What you're doin'  
When the night calls?

What you doin' with it  
What you doin' with it  
What you doin' when the night falls?

What you doin' with it?  
Cause I'mma do what I want

It's going down  
So we're doin' the night owls  
Night owls  
So we're doin' the night owls  
Night owls  
So we're doin' the night owls  
Night owls

Me and my baby  
We're some night owls  
We'll be going high with the lights out  
We'll be here in our hot style  
But she's walkin' down with her hot towel

Me and my baby  
We're some night owls  
We'll be going high with the lights out  
We'll be here in our hot style  
But she's walkin' down with her hot towel
