

Same Ol'

Eric Bellinger

She don't even wanna talk on the phone no mo cus she rather be textin
She don't even wanna with her girls no mo cus she rather be next to me
She don't even be thinkin bout a nigga no mo since she has sex with me
Sex with me is the only thing that's been on her mind

Tell me, can you blame her?
The way I be kissin that ain't wrong
Get it wet, girl I go way low
She know I never hit er with the same ol
Sex with me, sex with me
Sex with me, sex with me
We just ain't the same
(I never hit er with the same ol)

Look at how my love is takin over you
How did I become the only thing you wanna do?
You forgot you had to go to work in the morning
Way I put it down like nah
