

# Gotta Find My Baby

Eric Burdon

I'm gonna search this town from door to door Love I crave, I can't find no more I gotta find my baby, I deserve a little light  
Ain't had no real good loving Since that woman said goodbye

You know, I hate to see the sun sinking to the west 'Cause I know my whole life's gonna be one solid mess I gotta find my baby, I deserve a little light I ain't had no real good loving Since that woman said goodbye

Well, ever since that day when we said we were through I've been nervous and shook up, too

I gotta find my baby, I deserve a little light I ain't had no real good loving Since that woman said goodbye

Well, I don't care if it's the last thing I ever do in my life I'm gonna find that little woman and make her my wife

I gotta find my baby, I deserve a little light I ain't had no real loving Since that woman said goodbye
