

Gotta Get It On

Eric Burdon

Since the sun came up this morning
Seems I'm into something new
I think you're gonna get it
All my troubles are a falling
All my dreams are coming true
All my dreams are coming true
All because I think of you
All my dreams are coming true
After all time and space I've learned the taste
I've learned how to feel the meaning of my memories
Open up the space between us
You'll find that the only way
Find its the only way
Get down on your back and pray
Find it's the only way
After all I knew and yet I couldn't last
Now I've learned to feel the meaning of my past
And if youre gonna live tomorrow
You gotta get it on today
Got to get it on today
Got to get it on today
