

# I Will Be With You Again

Eric Burdon

It's ten o'clock in the morning  
Can't get out of my bed  
And I can't get you out of my head  
I reach over and touch someone  
But it isn't you who is there  
Never did like love affairs

Said goodbye to my kid  
Said goodbye to my wife  
Packed up my bags, put them in my car  
And said goodbye to this life  
Everybody said I was crazy  
How could I ever leave you this way  
I've been thinking a lot about you girl, today

I will be with you again  
I will be with you again  
I will be with you again

Everybody is staring at me  
Everybody looks so concerned  
I wish they could listen to me  
There's a lesson here to be learned  
I haven't felt this good for a long time  
So won't you please leave me be  
Let me swim in the sea of tranquility

I will be with you again  
I will be with you again  
I will be with you again

Set me free

I wish I could talk through your heart  
I wish you could hear what I say  
Even though we're miles apart  
You're with me every step of the way

I will be with you again

I will be with you one of these days 'Cause  
I can't feel I nothin' but love  
That's all I feel  
I can feel you, can you feel me?  
'Cause your love has set me free
