

# Love Is All Around

Eric Burdon

Love can be found all over town it's all around, it's all around.

Love everyway it's in the air it's all around, it's all around.  
It's every place it's in your face. it's in your mind it's in your mind.

Open your heart, open your eyes baby let it shine baby let it shine.

Yes love can be found all over town it's all around, it's all around.

Once you find it, baby don't deny it and maybe take pride in it.

Now you have found it's all around just let it show, baby let it show.

I'll show it to you, show it to me. And we'll watch it grow and we'll watch it grow.

But let it grow strong let it grow tall and let it grow out let it grow out.

As high as a mountain deep as a river as strong as a tide as strong as a tide.

Put your hand in mine and you will feel those power line those power line.

My love is your love your love is mine. Baby let it shine, baby let it shine.

Now you have it, baby don't you lose it and don't let nobody abuse it.

Fish in the sea the birds in the tree I love you now, i love you now.

The worlds in the ground the dogs in the pound, i love you now, i love you now
