Someday

When I'm cool
She's gonna think about how
She used to treat me so cruel
On that someday
Man, she'll crawl back to me

Someday

When I'm gone
She's gonna see how it feels to be
All alone
On that someday
Man, she'll crawl back to me

So she said goodbye again
I'm just waitin' for the time to come
When she'll get down on her knees
Beggin', now darlin', please

I've been tryin' every trick I know
But she still walks in
Makes me feel so grim
Seein' her is gettin' harder every day

Someday

When I'm cool
She's gonna think about how
She used to treat me so cruel
On that someday
Man, she'll crawl back to me

Man, she'll crawl back to me Man, she'll crawl back to me Someday Man, she'll crawl back to me
