

On This Side of Heaven

Eric Paslay

I close my eyes and we're dancing
I close my eyes but I can't sleep
I pray I drift away before the sunrise
So I can hold you for a minute in my dream

Oh what I'd give
To kiss your lips
And spin you around one more time

I'm still holdin' on, still holdin' on
To the moments we were given
I miss your love, I miss your light
Shining in the kitchen
Baby this house, yeah this whole town
A'int the same without you in em
Without you here, I'm goin through hell
On this side of heaven

You were the angel sent to save me
You made every street turn to gold
My paradise, my sweet by and by
If time heals all then tell me why

I'm still holdin' on, still holdin' on
To the moments we were given

I miss your love, I miss your light
Shining in the kitchen
Baby this house, yeah this whole town
A'int the same without you in em
Without you here, I'm goin through hell
On this side of heaven

Still in my head, still in my heart
On this side of heaven
Without you here, I'm fallin apart
On this side of heaven

I'm still holdin' on, still holdin' on
To the moments we were given
I miss your love, I miss your light
Shining in the kitchen
Baby this house, yeah this whole town
A'int the same without you in em
Without you here, I'm goin through hell
On this side of heaven

I'm fallin' apart, fallin' apart
On this side of heaven
