

## Another Week

Eric Saade

I shut the blinds, keep the world outside  
Sun no longer shining in your eyes  
Empty bottles underneath the sky  
Found a heaven in the summer nights

It was only for the summer, I know I know  
Every moment I was whitcha, I know I know  
I was losing track of time, living for the minute  
I promise, I'm so glad I spent it with you

Oops, there goes another week of my life, my life  
And I'm so glad I spent it with you (you)  
And I'm so glad I spent it with you  
I'm so glad I spent it with you

Oops, there goes another week of my life, my life  
And I'm so glad I spent it with you (you)  
And I'm so glad I spent it with you  
I'm so glad I spent it with you

Oops, there goes another week of my life, my life

You're miles away, still I hear your voice  
Can't recover from this overdose  
All the nights in between the sheets  
We were both each others ecstasy

It was only for the summer, I know I know  
Every moment I was whitcha, I know I know  
I was losing track of time, living for the minute  
I promise, I'm so glad I spent it with you

Oops, there goes another week of my life, my life  
And I'm so glad I spent it with you (yeah)  
And I'm so glad I spent it with you (mmm)  
I'm so glad I spent it with you

Oops, there goes another week of my life, my life (my life)  
And I'm so glad I spent it with you (you)  
Yeah, I'm so glad I spent it with you  
I'm so glad I spent it with you

Oops, there goes another week of my life  
It was only for the summer (I know, I know)  
Didn't even say I love ya (I know, I know)  
It was only for the summer (I know, I know)  
Every minute, every hour  
I'm so glad I spent it with you

Oops, there goes another week of my life, my life  
And I'm so glad I spent it with you (yeah)  
And I'm so glad I spent it with you (you)  
I'm so glad I spent it with

Oops, there goes another week of my life, my life (my life)  
And I'm so glad I spent it with you  
Yeah, I'm so glad I spent it with you

I'm so glad I spent it with you
