Love us as we are
See us and we're holy
In this shall we shall ever be
Wholly ourselves
Your love will take us far
Praise us and we'll show you
From Heaven to the glory holes
Glorious and free

There are those who think we're wicked There are those who call us names Depraved, lost and sick and Would rather bathe us in shame

But we put the "sin" in sincere We put the "do" in the doubt God is perfectly clear We are perfectly out

Love us as we are
See us and we're holy
In this shall we shall ever be
Wholly ourselves
Your love will take us far
Praise us and we'll show you
From Heaven to the glory holes
Glorious and free

I believe in the ritual of lipstick
The sanctity of electric guitar
But it's cool if you're not that Catholic
You can be wherever you are

Love us as we are
See us and we're holy
In this shall we shall ever be
Wholly ourselves
Your love will take us far
Praise us and we'll show you
From Heaven to the glory holes
Glorious and free

Love us as we are
See us and we're holy
In this shall we shall ever be
Wholly ourselves
Your love will take us far
Praise us and we'll show you
From Heaven to the glory holes
Glorious and free
