

Eldorado

Escape With Romeo

If you seek for eldorado
take the route obscure
but if you walk that lonely path
you never can be sure
will you rise or will you fall?
will you ever get there ?
Will you find your Eldorado or just another nightmare ?

From the center of the fountain
to the top of the mountain
you could be a desperado
and follow someone else's shadow
on your way to Eldorado

So you ride alone and brave
and pass the cities and the lands
on your way to Eldorado
you might find love
you might find some friends
but the route is always lonely
because you'll have to go alone
maybe you'll find your Eldorado
while you have nothing left undone

From the center of the fountain
to the top of the mountain
you could be a desperado
and follow someone else's shadow
on your way to Eldorado
From the point of no return
with no bridges left to burn
you could be a desperado
and follow someone else's shadow
if you seek for eldorado
you may find your eldorado
find your eldorado
go and seek for it !
