## Exterminate

## **Escape With Romeo**

Nothing's quite what it seems locked inside my sunken dreams through the early dawn we glide on your frozen wings I ride

Angel of mortality you look so good to me unimpressed by love and hate you have come to exterminate

## Zwischenteil

Vulcanoes will erupt with you Destruction is what they call you giant waves and thunderstorms watching as the world transforms

Angel of mortality you look so good to me unimpressed by love and hate you have come to exterminate
