

I Don't Love You Anymore

Escape With Romeo

here's a song
that I dedicate to you
although I know
you're not listening now

Your beautiful face
caused so much misery
all I see in your eyes now
is worldwar 3

I don't love you anymore

apart from the anger
aside from the cages
I look for emotion
that is lost for ages

now I'm a robot
but I still can feel and
I wait for the moment
my wounds will heal

I don't love you anymore
