

They've wiped the streets
of boredom and pain
drink sparkling water
that tastes like champagne
While the party is going on and on
you'll be so happy
do you think
this will last forever?

REF:

Who am I
Who am I
on planet euphoria

They've turned a magician
into the president
the happy times
will they ever end ?
whilst the artificial sun makes us feel save and secure
I wonder.....
will this last forever ?

REF

I was alone
in the control tower
as I played with the knobs
I switched off the power
It slowly got darker
and people felt tired
like marionettes with their strings dipping low
and I wonder
is this the end or will this last forever ?
