

# Somebody

## Escape With Romeo

Yes you keep me in motion  
circling planets will never stop  
I'm in the canalisation  
and now  
I'm coming to the top

there's a train that goes backwards  
and a will to survive  
I feel like walking on razorblades  
black spots (they) cover my life

REF:  
Feel the move  
start to groove  
as I fade  
you should know that I never wait  
for somebody.....

I fell in love with my killer  
this is hijacked emotion  
throwing kisses with a machine gun  
in the name of devotion  
and you feel good in your prison  
how long is that going fine  
out in the critical distance.....  
I can make the rules of the game
