

# Thy Kingdom Gone

Eternal Deformity

Cold emptiness  
Dark weeping ruthless void  
Will you get enough to go on  
Made of your own fears and painful thoughts  
Wild and odd it seems to become

So here I come with torch  
To light up your mind  
Just say no more  
Be prepared you hopeless whore  
And now you can't resist me  
Get down and praise my name  
And now you can not reject me  
For this I spread my poison in you

My poison in you  
Thy kingdom gone  
Thy kingdom gone
