## In My Diary

In my diary
A lot of things
I'm gonna write, write about
The moon and lonely night

In my diary Oh it's gonna tell her about you Tell her all your charms And the things you do

Diaries are made Of the things you do And of the people we've met

Ohhhh, but my diary is about you And I don't want to forget

In my diary I write as plain as plain as I get a picture with words So the world can understand Ohhhh so they can understand So the world, world, world, world, world Can understand
