It Could Happen to You

Etta James

Hide your heart from sight Lock your dreams at night It could happen to you

Don't count stars
Or you might stumble
For someone will drop a sigh
And down you'll tumble

Keep an eye on spring
Run when church bells ring
It could happen to you

All I did was wonder How your arms would be And it happened to me

Hide your heart from sight Lock up your dreams at night It could happen It could happen to you

Don't count stars, don't count stars Or you may stumble For someone will drop a sigh And down you'll tumble

Keep an eye on spring
Run when church bells ring
It could happen
It could happen to you

All I did was wonder
How your arms could be
And it happened to me
And it happened
And it happened
And it happened
