

Just the Beginning

Europe

I can walk on fire, it ain't stopin' me
It's just showin' me the way
Come thunder, lighting all over me
I'd still be on my way

You can put me through loads of trouble
But in anyway

It's just the beginnin' and not the end
No use in pretendin' cause you can't win
It's just a beginnin', the beginnin'
Not the end

It's not a strange behavior, it's the way I am
Nothin' puts me down
And if a situation would get out of hand
I'd still be back around

You can put me through loads of trouble
But never bring me down

It's just the beginnin' and not the end...

I can walk on fire, it ain't stoppin' me...

You can put me through loads of trouble
But in any way

It's just the beginnin'
It's just the beginnin'
It's just the beginnin'
It's just the beginnin'

It's just the beginnin', and not the end...
