

Let the Good Times Rock

Europe

You say that you want me
I hope that you do
Cause tell me just where I would be in this world
Without someone like you

When you say that you need me
Like only you can
Oh baby you don't really know what you've done
To the heart of this man

So baby tonight we will celebrate
And talk of the times til it gets real late
Yes baby tonight we'll appreciate
Just what we've got
So let the good times rock

Oh when you squeeze me
And say that you care
There's nothin' I know that could drag me away
When that feelin' is there

Oh the way that you move me
And makin' me feel
Well I could have sworn that I lived in a dream
If it wasn't for real

Oh baby tonight we will celebrate...
