

Like The Rain

Evan and Jaron

You never smile
The way you used to do
I see you trying
But it's just not you
What is wrong
And what is right
Marvin said he tried
He just couldn't get through
Maybe it's a line
He's just not used to
What went wrong
And what went right
Tell me do you plan this pain
Does it come down on you
Like the rain
Is there something I can say to you
I can't stop the storm
But I can cover you
There's something in the doorway
Between you and me
From my angle
It's too hard to see
Tell me would you please
Humor me
Do you care about me
Then care about yourself
Or carry on your way
All by yourself
Your sinking ship
Is drowning me
Every now and then
I think of how it used to be
The power you would send
Would light up the city
For miles around you were never alone
I can see you struggle
And I can feel your pain
I think we're headed for trouble
Are we falling apart again
