Ready Or Not

Evan and Jaron

There was nothing down in my little town No one I could be
Nobody there in the empty square
Soon to include me
So I borrowed myself a stolen van
And I got myself to where I am

I made my escape while no one watched And inside my head I had just one thought It was freedom that I wanted Freedom that I got Ready or not

It's another world that I find me in
I think someone stole the van
And the people here are like aliens
And I don't know what I am
And the pretty pretty girls I thought I could trust
Have taken everything but my bad luck

Now I'm not so bad and I'm not so hot I said I don't care but I cared a lot It was changes that I wanted Changes that I got Ready or not

Now I'm not so radical as I thought I said I don't care but I cared a lot It was freedom that I wanted Freedom that I got Ready or not
