Lithium

Evanescence

```
     Bmi As Dmi#
R: Lithium, don't want to lock me up inside
   Lithium, don't want to forget how it feels without
     Bmi As Dmi#                               Bmi
   Lithium, I want to stay in love with my sorrow
     As Dmi#                      Bmi
   Oh, but God I want to let it go

     Bmi                          F#
1. Come to bed, don't make me sleep alone
                      Dmi#           As      Bmi
   Couldn't hide the emptyness you let it show
     Bmi               F#
   Never wanted to be so cold
                      Dmi#              As
   Just didn't drink enough to say you love me

     Bmi            F#
   I can't hold on to me
     Bmi           Dmi#
   Wonder what's wrong with me

R: Lithium, don't want to lock me up inside
   Lithium, don't want to forget how it feels without
   Lithium, I want to stay in love with my sorrow
   Oh
   Oh

                    F#        As          Bmi
*: Don't want to lay me down this time
     F#         Dmi# As Bmi
   Drown my will to fly
     F#             F          Bmi
   Here in the darkness I know myself
     F#           Dmi#                    Bmi
   Can't break free untill I let it go
   Let me go

2. Darling I forgive you after all
   Anything is better than being alone
   And in the end I guess I had to fall
   Always find my place among the ashes

   I can't hold on to me
   Wonder what's wrong with me

R: Lithium, don't want to lock me up inside
   Lithium, don't want to forget how it feels without
   Lithium, stay in love with me
   Oh I am gonna let it go.
