

## Sun Down

Evermore

Gone on Wednesday  
Back on Tuesday  
Walk down the stream  
And you float away, yeah

Everyday now,  
Black is the same now  
But for you  
You bring back light

And the sun down  
Wold be yours now and then  
And the rays of light  
Will break through winter's night

Black is the same now
