

# Waves On The Sun

Evermore

Is it any wonder  
My whole world disappeared  
Is it any wonder  
My whole world disappeared

I'm fading to grey  
I'm floating away  
I'm running away  
I cannot escape

'Cause the waves crash on the sun  
The waves crash on the sun  
I'm old enough to know  
The waves crash on the sun

I'm falling away, falling away from you  
I'm falling away, falling away from you

Like a fire, shadows burning away  
Like a fire, shadows burning away  
Like a fire, shadows burning away  
Like a fire, shadows burning away
