

You'll Never Know

Every Avenue

All the little reasons that you'll never know who I am
All the little secrets that you can never understand
You'd be there forever, (hey hey) is what you said
But you always let me down (hey hey)
It always gave me such surprise (hey hey)
I'm used to it by now (hey hey)

You are the reason that I'm afraid to leave
You are the reason that I never will believe
And now that I see
I thank you for the meaning
That I thought I'd never find:
I'm a better man than you

All the little reasons that I never said these words to you
All the little lies that you told; you were never true
And I gave you a hand, but you never trusted (?)
And you always let me down (woah)
I'll never get a chance to love you

You are the reason that I'm afraid to leave
You are the reason that I never will believe
And now that I see
I thank you for the meaning
That I thought I'd never find:
I'm a better man than you
Better man than you
Better man that you

All the little reasons that you'll never know who I am
All the little secrets that you can never understand
You'd be there forever, is what you said
But you always let me down
It always gave me such surprise
I'm used to it by now

And now that I see
I thank you for the meaning
That I thought I'd never find:
I'm a better man than you
Better than you (hey hey)
Better than you (better than you)
(hey hey)
I'm a better man than you
(hey)
