

# Calculate

Everyday Sunday

Right now I'm in daze, more than a little amazed  
I'm falling I can't help it  
When I'm with you I'm in heaven  
And I just wanna stay

I feel my heart go boom, boom, boom, boom!  
You fill it up no more room, room, room, room  
You leave me speechless by the things that you do  
You're so beautiful no words can say

I can't calculate, calculate  
All the ways that you love me, that you love me  
I can't calculate, calculate  
All the ways that you love me, that you love me  
Oho, oho, oho, oho, can't calculate  
Oho, oho, oho, oho, can't calculate  
Oho, oho, oho, oho, can't calculate  
Oho, oho, oho, oho, can't calculate

I'll never be the same, I melt when I hear your name  
You're so close that I can feel you  
When you whisper I can hear you  
Only wanna see your face

I feel my heart go boom, boom, boom, boom!  
You fill it up no more room, room, room, room  
You leave me speechless by the things that you do

You're so beautiful no words can say

I can't calculate, calculate  
All the ways that you love me, that you love me  
I can't calculate, calculate  
All the ways that you love me, that you love me  
Oho, oho, oho, oho, can't calculate  
Oho, oho, oho, oho, can't calculate  
Oho, oho, oho, oho, can't calculate  
Oho, oho, oho, oho, can't calculate

Your love is like the stars, filling up the skies  
It's impossible to count all the lights  
I could spend forever, but it's not enough time  
No it's not enough time  
No it's not enough

I can't calculate, calculate  
All the ways that you love me, that you love me  
I can't calculate, calculate  
All the ways that you love me, that you love me  
Oho, oho, oho, oho, can't calculate  
Oho, oho, oho, oho, can't calculate  
Oho, oho, oho, oho, can't calculate  
Oho, oho, oho, oho, can't calculate
